## **BLS Identification Crib sheet**

Overall appearance ('jizz'')  Habitat  What is it growing on- tree or earth or rock? Tree species? Rock type?  Detailed habitat (micro-habitat)  Thallus type  Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thiallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?  Pseudocyphellae & Appearance. Where?  Pseudocyphellae & Appearance. Where?  Pseudocyphellae & Appearance. Where?	Category	Examples	
("jizz")  Habitat What is it growing on- tree or earth or rock? Tree species? Rock type?  Detailed habitat (micro-habitat) Where on the tree/ earth/rock? Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae & cyphellae		•	
Habitat  What is it growing on- tree or earth or rock? Tree species? Rock type?  Detailed habitat (micro-habitat)  Prolitose, fruticose, crustose, leprose, squamulose, or  Thallus type  Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?	appearance		
earth or rock? Tree species? Rock type?  Detailed habitat (micro-habitat) Where on the tree/ earth/rock? Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where? earth or rock? Tree species? Rock type?  Detailed habitat (micro-habitat) Where on the tree/ earth/rock? Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?			
Tree species? Rock type?  Detailed habitat (micro-habitat)  Where on the tree/ earth/rock? Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type  Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?	Habitat		
Rock type?  Detailed habitat (micro-habitat)  Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type  Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?			
Detailed habitat (micro-habitat)  Where on the tree/ earth/rock? Damp/shade, vertical/horizontal? Aspect/way is it facing?  Thallus type  Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Soredia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae		<u> </u>	
(micro-habitat)       Damp/shade, vertical/horizontal? Aspect/way is it facing?         Thallus type       Foliose, fruticose, crustose, leprose, squamulose, or         Thallus size       Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?         Thallus colour       Wet and dry Upper and underside         Thallus edge       Shape Prothallus (crustose) Thickness (crustose)         Thallus features       Are there areoles? Are there squamules?         Rhizines       Appearance. Where?         Cilia       Appearance. Where?         Soredia       Appearance. Where?         Isidia       Appearance. Where?         Pseudocyphellae       Appearance. Where?			
Aspect/way is it facing?  Thallus type Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & Appearance. Where?			
Thallus type Foliose, fruticose, crustose, leprose, squamulose, or  Thallus size Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae Appearance. Where?  Pseudocyphellae Appearance. Where?	(micro-habitat)		
leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?		Aspect/way is it facing?	
leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?			
leprose, squamulose, or  Thallus size  Dimensions of whole thallus Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?	Thallus type	Foliose, fruticose, crustose,	
Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?	7.		
Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?			
Dimensions of lobe Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?	Thallus size	Dimensions of whole thallus	
Is there "lots of it"?  Thallus colour  Wet and dry Upper and underside  Thallus edge  Shape Prothallus (crustose) Thickness (crustose)  Thallus features  Are there areoles? Are there squamules?  Rhizines  Appearance. Where?  Cilia  Appearance. Where?  Soredia  Appearance. Where?  Isidia  Appearance. Where?  Pseudocyphellae & cyphellae  Appearance. Where?	11101100 0120		
Thallus colour Wet and dry Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae Appearance. Where?			
Upper and underside  Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae Appearance. Where?			
Thallus edge Shape Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae Appearance. Where?  Appearance. Where?	Thallus colour	Wet and dry	
Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?		Upper and underside	
Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?			
Prothallus (crustose) Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae & cyphellae Appearance. Where?	Thallus edge	Shape	
Thickness (crustose)  Thallus features Are there areoles? Are there squamules?  Rhizines Appearance. Where?  Cilia Appearance. Where?  Soredia Appearance. Where?  Isidia Appearance. Where?  Pseudocyphellae Appearance. Where?  Appearance. Where?	Trialiao oago
